NHIndustries statement regarding Norwegian Ministry of Defence announcement to terminate NH90 contract

NHIndustries is extremely disappointed by the decision taken by the Norwegian Ministry of Defence and refutes the allegations being made against the NH90 as well as against the Company. NHIndustries was not offered the possibility to discuss the latest proposal made to improve the availability of the NH90 in Norway and to address the specific Norwegian requirements.

NHIndustries considers this termination to be legally groundless.

The NH90's inherent characteristics offer any armed forces with an advanced, fully integrated mission capability, survivability, speed, range of action, discretion as well as night and all-weather operations without equal in the world in its category. In its naval configuration, it is an incomparable asset to answer the needs of Norwegian Armed Forces, allowing the most advanced surveillance capabilities in the North Sea, just as the NH90 is doing elsewhere across Europe at sea protecting nations.

NHIndustries and its Partner Companies are, and have continuously been absolutely committed to addressing the concerns previously expressed and have brought the appropriate and tailored solutions to the table to meet the specific and unique Norwegian requirements. With 13 helicopters delivered out of 14 and the fourteenth ready for acceptance, we were close to finalizing the main scope of the initial contract.

About NHIndustries

NHIndustries is the largest rotorcraft Joint Venture in European history and it is responsible for the design, manufacturing and support of the NH90 helicopter, one of the leaders in the latest generation of military helicopters. The Company takes the best from European Rotorcraft and Defence Industry, being owned by Airbus Helicopters (62.5%), Leonardo (32%) and GKN Fokker (5.5%). Each company has a long aerospace pedigree and brings the top of its skills and expertise to the end product.
